

ACTORS NEEDED

Ellis Island: The Dream of America

The Civic Symphony of Green Bay is seeking seven actors (four female, three male) for our April 16, 2023 performance of Peter Boyer's *Ellis Island: The Dream of America*.

The actors will each read one of seven immigrant stories, monologues delivered in the first person with musical underscoring. Preference will be given to actors who use accents to add a convincing quality to the readings, however, intelligibility of the texts is more important than "authentic" or "thick" accents. Video audition applications are currently being accepted and will be reviewed on an ongoing basis until all seven roles are cast. Actors of all abilities, experiences, and ethnicities are invited to audition.

Visit gbcivic.org/EllisIsland for more details and the online application.

Ellis Island: The Dream of America celebrates the historic American immigrant experience and the American dream. The 45-minute work is a multimedia masterpiece combining music played by the orchestra, actors reading the words of actual American immigrants, and projected historical images from the Ellis Island archives.
